

The Sustainable & Green Packaging Market 2011-2021

Materials Report

Report Information:

Publication date: 30/06/2011
Number of Pages: 162

Report Details:

The Sustainable & Green Packaging Market 2011-2021 is Visiongain's brand new materials report which analyses the industry trends prevailing in the **global sustainable & green packaging market and anticipates the progression in the market over the next decade**. The report also surveys recent market trends among major companies and reveals where the market will experience growth, laying out the market's strengths and weaknesses with targeted forecasts. Visiongain's analysis has concluded that the global value of the sustainable & green packaging market will reach \$107.7bn in 2011.

The Sustainable & Green Packaging Market 2011-2021 report examines the scope of growth available in the dynamic packaging industry through items such as lightweight packaging, biodegradable packaging, recycled PET, corrugated paperboard, and designer glass bottles and containers. The report discusses the developments related to the changing demographics of the world population, shift in consumer preference towards eco-friendly packaging, emerging economies, rising GDPs, increasing consumption for packaged food in the developing economies, reformation in laws and regulations, rising importance of recyclable eco-friendly material, health awareness, food and safety issues and their impact on the global sustainable & green packaging industry.

Our detailed **study analyses the global sustainable & green packaging industry and explores the emerging market potential in the promising economies** and sub-markets as the demand for sustainable & green packaging increases in these countries due to rising environmental awareness, food and safety concerns, growing GDPs in developing nations, enhanced purchasing power, changing lifestyles, and increasing consumer inclination towards reusable and recyclable packaging. Furthermore, with the rebound in the economy, **rising environmental concerns**, governments' initiatives towards waste management, and **rising demand for cost-effective, lightweight and recyclable material will drive the demand in the global sustainable & green packaging industry**. As the sustainable & green packaging market undergoes regional shifts and technological changes, the future of the industry will look very different, leading to growth

opportunities. These opportunities are described in detail within this report.

Which nations offer the most significant growth opportunities between 2011 and 2021? To what extent can sustainable & green packaging prove beneficial? How and why is sustainable & green packaging considered a better option than other packaging material choices? Which factors are influencing the design and requirements of sustainable & green packaging products?

Visiongain answers these critical questions and many more through the in-depth analyses that are presented in this report.

Comprehensive analysis of the global sustainable & green packaging market

The Sustainable & Green Packaging Market 2011-2021 report examines this important sector critically. We supply a comprehensive review of contracts via analysis of policy documents, news reports, industry publications, market analysis and consultations with experts. This report **provides detailed global and national market forecasts, a SWOT analysis, technological developments and analyses of commercial drivers and restraints**. There are original interviews from key players in the field who provide insights into different aspects of the global sustainable & green packaging market and offer their own analysis. You will not find these analyses anywhere else.

Why your prospects should buy The Sustainable & Green Packaging Market 2011-2021

The main benefits from purchasing this report:

- You will achieve a thorough understanding of the current global sustainable & green packaging market and how it will evolve over the next decade with detailed global sales forecasts for the period 2011-2021.
- You will gain insight into leading consumer sustainable & green packaging sub-markets for the period 2011-2021.
 - Food Packaging
 - Drink Packaging
 - Personal Care Packaging
 - Healthcare Packaging
 - Other Packaging
- You will receive forecasts for the 15 leading national markets for the period 2011-2021.
 - US
 - Japan
 - China
 - Canada
 - Germany
 - France
 - Brazil
 - India
 - Russia
 - UK
 - Spain
 - Italy

- Mexico
- South Africa
- RoW
- You will be able to study over 100 tables, charts and graphs quantifying and forecasting the sustainable & green packaging market in detail
- You will gain insight into the market drivers and restraints influencing the sustainable & green packaging over the period 2011-2021
- You will gain insight into major important game-changing technological developments within the sustainable & green packaging market
- You will receive profiles of 20 of the leading companies within the sustainable & green packaging marketplace
- You will receive a SWOT analysis for the global sustainable & green packaging market from 2011-2021
- You will read an original interview from an expert from a leading company involved in the sustainable & green packaging industry which offers insight into the analysis, as well as their own reflections on the market.

You can order this report today

Anybody with an interest in the sustainable & green packaging industry should gain valuable information and insight from this new study by Visiongain, which analyses one of the most important sub-sectors of the global packaging industry. The Sustainable & Green Packaging Market is one of the most crucial segments of the global packaging industry and it is undergoing many important shifts. You can stay ahead by ordering this report today.

Table of contents:

1. Executive Summary

- 1.1 Global Sustainable & Green Packaging Market Overview
- 1.2 Forms of Sustainable & Green Packaging
- 1.3 Factors Driving & Restricting the Sustainable & Green Packaging Market
 - 1.3.1 Factors Driving the Sustainable & Green Packaging Market
 - 1.3.2 Factors Restricting the Sustainable & Green Packaging Market
- 1.4 Benefits of This Report
- 1.5 Who is the Report for?
- 1.6 Methodology
- 1.7 Global Sustainable & Green Packaging Market Forecast
- 1.8 Growth Trend in Sustainable & Green Packaging Sub-Markets
- 1.9 Leading National Sustainable & Green Packaging Market Forecasts

2. Introduction

- 2.1 Sustainable & Green Packaging - Definition
- 2.2 Importance of Sustainable & Green Packaging
- 2.3 Factors Influencing the Sustainable & Green Packaging Market
 - 2.3.1 Government & Regulations
 - 2.3.2 Retailers and FMCGs
 - 2.3.3 Packagers and Packing Companies
 - 2.3.4 End Users
- 2.4 Sustainable Materials

3. The Global Sustainable & Green Packaging Market 2011-2021

- 3.1 Market Overview
- 3.2 Factors Leading to the Growth of the Sustainable & Green Packaging Market
 - 3.2.1 Ageing Populations
 - 3.2.2 Rising Environmental Awareness
 - 3.2.3 Single Households
 - 3.2.4 Increased Incomes
 - 3.2.5 Convenience
 - 3.2.6 Advanced Technologies
- 3.3 Gradual Rise in the Sustainable & Green Packaging Market Share
- 3.4 Latest Trends Foreseen
 - 3.4.1 Renewable, Recyclable, Compostable Materials
 - 3.4.2 Rethinking Packaging Designs
 - 3.4.3 Sustainable Packaging Scorecards and Programs
- 3.5 The Future Is Green and Sustainable

4. Leading Sustainable & Green Packaging Sub-Markets 2011-2021

- 4.1 Sustainable & Green Food Packaging Sub-Market
- 4.2 Sustainable & Green Drink Packaging Sub-Market
- 4.3 Sustainable & Green Personal Care Packaging Sub-Market
- 4.4 Sustainable & Green Healthcare Packaging Sub-Market
- 4.5 Other Sustainable & Green Packaging Sub-Market

5. Leading Regional Sustainable & Green Packaging Markets 2011-2021

- 5.1 US Sustainable & Green Packaging Market
 - 5.1.1 Recycled Plastic Packaging among Fastest Growing Types
 - 5.1.2 Reusable Packaging to Grow at Above-Average Pace
 - 5.1.3 Cups, Plates, Bowls and Containers to Pace Biodegradable Segment
 - 5.1.4 Non-biodegradable "Green" Plastics to Debut in 2011
- 5.2 Japanese Sustainable & Green Packaging Market
- 5.3 Chinese Sustainable & Green Packaging Market
- 5.4 Canadian Sustainable & Green Packaging Market
- 5.5 German Sustainable & Green Packaging Market
- 5.6 French Sustainable & Green Packaging Market
- 5.7 Brazilian Sustainable & Green Packaging Market
- 5.8 Indian Sustainable & Green Packaging Market
- 5.9 Russian Sustainable & Green Packaging Market
- 5.10 UK Sustainable & Green Packaging Market
- 5.11 Spanish Sustainable & Green Packaging Market
- 5.12 Italian Sustainable & Green Packaging Market
- 5.13 Mexican Sustainable & Green Packaging Market
 - 5.13.1 Health and Wellness Trend Impacts Packaging
 - 5.13.2 Pack Types Differentiate Premium and Economy Products
 - 5.13.3 Mexican Packaging Industry Slowly Adopts Global Trends
- 5.14 South African Sustainable & Green Packaging Market
- 5.15 RoW Sustainable & Green Packaging Market

6. SWOT Analysis of the Sustainable & Green Packaging Market 2011-2021

- 6.1 Strengths
 - 6.1.1 An Eco-friendly Packaging Option
 - 6.1.2 High Awareness of Global Warming Issue
 - 6.1.3 Life Assessment Cycle Indicates Less Carbon Dioxide Release

6.1.4 Governments Globally Emphasise the Need to Promote Environmental Responsibility

6.2 Weaknesses

6.2.1 Stringent Environmental Policies to be Implemented by Governments Globally

6.2.2 High Cost Restricts the Growth of Sustainable & Green Packaging

6.2.3 Lack of Market Awareness about Sustainable Packaging and its Benefits

6.2.4 Lack of Proper Recycling Infrastructure

6.3 Opportunities

6.3.1 Strong Environmental Movements Offer Scope for Growth

6.3.2 Replacing Virgin Material with Recyclable Material

6.3.3 Rising awareness within the Supply Chain

6.4 Threats

6.4.1 Industry Lacks Investment on Essential Research & ; Development

6.4.2 Lack of Proper Guidelines

6.4.2 Weak Systems to Monitor the Industry Progress

7. Expert Opinion

7.1 Spokesperson Representing One of the Leading Sustainable Packaging Companies

7.1.1 Increase in Environmental Awareness

7.1.2 Consumers' Acceptance of Sustainable Packaging

7.1.3 Role of Sustainability Packaging in Building Brand

7.1.4 Trends Foreseen in the Sustainable & Green Packaging Market

7.1.5 Market Awareness of Sustainable Packaging

7.1.6 Economic Influence on Sustainable Packaging Options

8. Leading Companies in the Sustainable & Green Packaging Market

8.1 Amcor Limited

8.2 Ball Corporation Ltd.

8.3 Bemis Company, Inc.

8.4 Biopack Environmental Solutions Inc

8.5 Constar International Inc.

8.6 Crown Holdings

8.7 Earthcycle Packaging Ltd.

8.8 Enviropak Corporation

8.9 Georgia-Pacific LLC

8.10 Graphic Packaging

8.11 Graham Packaging

8.12 Huhtamäki Oyj

8.13 Meadwestvaco Corporation

8.14 Natureworks LLC

8.15 Owens-Illinois, Inc.

8.16 Pactiv Corporation

8.17 Plantic Technologies Ltd

8.18 Rexam Plc

8.19 Sealed Air Corporation

8.20 Tetra Pak International AB

8.21 Other Leading Sustainable & Green Packaging Companies

9. Conclusions

9.1 Growth in the Global Sustainable & Green Packaging Market

9.2 Growth in Leading National Sustainable & Green Packaging Markets

9.3 Factors Driving the Need for Sustainable & Green Packaging

9.4 Green Packaging at the Forefront

9.5 Recent Company Activities in the Global Sustainable & Green Packaging Market

9.6 Positive Outlook of the Sustainable & Green Packaging Market

Organisations Mentioned in This Report

Canadian Council of Ministers of the Environment (CCME)

Department for Environment, Food and Rural Affairs (DEFRA)
Environmental Protection Administration (EPA)
European Council for Packaging and the Environment
Food Processing and Packaging Machinery Assn. of the German Engineering Federation (VDMA)
France's Agency for Environment and Energy Management
French Senate and National Assembly
German Plastics Packaging Industry Association
German Research Institute
Grocery Manufacturers Association (GMA)
Ministry of Economy, Trade and Industry (METI)
Michigan State University School of Packaging
Sustainable Retailing Consortium
Taiwanese Environmental Protection Administration (EPA)
The German Association of the Aluminium Industry (GDA)
U.S. Environmental Protection Agency
Western Michigan University

Report Pricing:

GBP £6999 - Global Site License - access for whole company worldwide.

GBP £4999 - Site License - access for whole company at one location.

GBP £2999 - Departmental License - access for 5 users in your department.

GBP £1499 - Individual License - access for one user only.
